Professional Summary

Full stack .NET Developer with 10+ years of experience designing, building, and scaling high-performance web applications and APIs using C#, ASP.NET Core, and SQL Server.

Technical Skills

- **Programming Languages:** C#, JavaScript, TypeScript, SQL.
- **Frameworks & Libraries:** .NET Core, ASP.NET Core, MVC, Entity Framework, LINQ, Blazor.
- **Databases & Cloud:** SQL Server, PostgreSQL, AZURE (App Services, SQL Database)
- **Tools & DevOps:** Git, Docker, Visual Studio, Azure DevOps, CI/CD pipelines.

Professional Experience

.NET Developer | First Citizens Bank (Nov 2022–Aug 2026)

- **Led the architectural modernization** of legacy financial software by porting a mission-critical AngularJS application to a decoupled Angular and **ASP.NET Core Web API** ecosystem.
- **Designed and optimized relational database schemas** using **SQL Server** and **Entity Framework Core**, focusing on query performance tuning, index optimization, and data security compliance.
- **Collaborated closely in an Agile/Scrum environment** to deliver reliable, bi-monthly production deployments, utilizing structured unit testing to maintain high code coverage and reduce regression bugs.

.NET Developer | Allied Payment Network (Nov 2020–Sep 2022)

- **Architected and executed the migration** of a core client-facing web portal from Angular to **Blazor**, significantly improving initial page load performance and streamlining code sharing across the C# stack.
- **Built secure, high-throughput RESTful APIs** utilizing asynchronous programming (async/await) and dependency injection patterns to process transactional payment data efficiently.
- **Containerized .NET microservices** using **Docker** and managed orchestrations across a **Kubernetes (AKS/Cloud)** cluster through automated **Azure DevOps CI/CD pipelines**.

.NET Developer | Trans-Works / Contractor (Mar 2018–Jul 2020)

- **Engineered robust backend** systems and third-party API integrations supporting logistics and supply chain enterprise workflows.
- **Utilized LINQ and advanced SQL querying** to generate complex data reports and background processing tasks with a focus on memory optimization and minimizing transactional locking.

- **Participated in quarterly milestone releases** under strict Agile timelines, actively engaging in peer code reviews to enforce SOLID design principles and clean code standards.

.NET Developer | Logikos, Inc. (May 2016–Mar 2018)

- **Developed, debugged, and optimized** an enterprise in-house C# desktop application, leveraging asynchronous event handling and structured MVVM/MVC design patterns.
- **Authored comprehensive unit test suites** to ensure maximum reliability of core business logic prior to release cycles.

Education

A.A.S. | Computer Science | Ivy Tech Community College (Aug 2015)

Technical Certifications

Software Development | Ivy Tech Community College (Aug 2015)

Web Application Development | Ivy Tech Community College (Aug 2015)

AZ-900 | Microsoft Certified: Azure Fundamentals (Sep 2026)

Military

Electronic Technician E5 | Honorable Discharge | U.S. Navy (May 1981–May 1987)
